Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12/27/00, 2/9/01, 6/27/01, 1/16/02.

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Claims 1-7 in Paper No. 8 is acknowledged.
2. Claims 8-56 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8.

Claim Rejections - 35 USC § 112

3. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the language "as such" is indefinite and not understood.

In claim 2, it is unclear what "the other resins" is referring to.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 1711

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-7 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over U.S. 4,702,859 (Shimizu et al).

Shimizu et al disclose an electrically conductive polyamide resin composition comprising

(A) 100 parts by weight of a polyamide resin derived from xylylenediamine as a main diamine component and an alpha, omega-linear aliphatic dicarboxylic acid as a main dicarboxylic acid component,

(B) 5 to 100 parts by weight of nylon 66,

(C) 30 to 300 parts by weight of glass fibers,

(D) 5 to 40 parts by weight of furnace black, and

(E) 5 to 40 parts by weight of graphite.

It is reasonably believed that the disclosure of the reference meets the requirements of the present claims both in terms of the types of materials added and their contents. That is, the mixture of nylons meets the resins differing in the rate of crystallization and the furnace black meets the carbon black of claim 4. The onus is shifted to applicants to establish that the products of the present claims are not the same as or obvious from those of the prior art.

7. Claims 1-7 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over XP-002166020.

The reference teaches a conductive resin mixture containing polyphenylene ether, polyamide and carbon black.

It is reasonably believed that the disclosure of the reference meets the requirements of the present claims both in terms of the types of materials added and their contents. That is, the mixture of polyphenylene ether and polyamide meets the resins differing in the rate of crystallization and the carbon black also meets the inorganic filler of claim 6. The onus is shifted to applicants to establish that the products of the present claims are not the same as or obvious from those of the prior art.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ana L Woodward whose telephone number is (703) 308-2401. The examiner can normally be reached on Monday-Friday (8:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James J. Seidleck can be reached on (703) 308-2462.
